"Сгущенного молока и меда и можно без хлеба"

Сгущенное молоко – А;

Мед – В;

Хлеб – С.

Руководствуясь логикой Пуха (сожрать и мед и сгущенку, и не важно, с хлебом или без), и, так как Кролик был очень воспитанным, то:

$$X = (A \cdot B) + C \cdot \overline{C}$$
